

TEXAS CHAPTER AWARDS 2013

*Recognizing outstanding achievements
in Internal Medicine.*

*“We are here to add
what we can to,
not to get what
we can from life.”*

— Sir William Osler

LAUREATE AWARD

The Laureate Award honors those Fellows and Masters of the College who have demonstrated by their example and conduct an abiding commitment to excellence in medical care, education, or research and in service to their community, their Chapter, and the American College of Physicians.

The recipient of this award shall bear the title Laureate of the Texas Chapter.

These awards shall be presented at the Annual Scientific Meeting. The awardees should accept the recognition in person, unless excused by the Governor. The awardees are to be nominated by a process that may originate from the Awards Committee or from any member of the Chapter. The nomination must document the attributes and accomplishments of the nominee.

The awardees shall be senior physicians and Fellows or Masters of long-standing, with acknowledged excellence and peer approval in the field of internal medicine. In addition, the awardees should have served their Chapter with distinction. Exceptional circumstances may modify these requirements.

It is with distinct pleasure that this year, the Texas Chapter presents the Laureate Award to **Philip Bentlif, MD, FACP; Stephen Greenberg, MD, MACP; Antonio Gotto, Jr., MD, DPHIL, FACP; and Kenneth Shine, MD, MACP.** These physicians are long-standing and loyal supporters of the College, have rendered distinguished service to the Chapter and have upheld the high ideals and professional standards for which the College is known.

We salute and honor these Laureate Awardees on this occasion, and we wish them and their families well in the future.

Robert E. Jackson, MD, FACP
Governor, Texas Southern Chapter

Sue S. Bornstein, MD, FACP
Governor, Texas Northern Chapter

PHILIP SIDNEY BENTLIF, MD, FACP

Dr. Philip Sidney Bentlif was born into medicine as his father had an internal medicine solo practice in Jersey along England's channel Isles. As a child, Philip would set up his toy soldiers as patients waiting to be seen in his fortress office. The German invasion of his home forced Phil to move to the British mainland, where he began his education at Eaton School. He pursued premedical studies at Jesus College, Cambridge University and graduated from Middlesex Hospital Medical School in London. Dr. Bentlif perused his post graduate training in internal medicine and gastroenterology in America at Johns Hopkins Hospital. Fortunately for us, Dr. Bentlif moved to Texas where he served as Chief resident at Baylor College of Medicine. Phil received the Certification of Honor for having the highest grade on the Texas State Board of Medical Examiners. He became an associate of the American College of Physicians in 1965, advanced to fellow to 1968, and has been active in the ACP for 48 years. He began his private practice in gastroenterology at Kelsey-Seybold Clinic and joined the clinical faculty at Baylor College of Medicine where he has remained on teaching staff for 42 years. Phil became a partner at the Medical Clinic of Houston in 1988. Phil's interests in gastroenterology are varied but he concentrated on the difficult field of inflammatory bowel disease. He led one of the largest clinics in ileitis and colitis in the country, and was one of the first to use biological agents for these diseases in the early 1990's. He was a mentor to several physicians and served as co-chairman of the scientific advisory board of the Houston/Gulf Coast Chapter for 14 years, and receiving the Great Texans Award in 1973. In 2002, he was recognized with the lifetime achievement award by the National Foundation for Ileitis and Colitis.

In addition to having memberships to numerous national and international medical societies, having published several scientific papers and given numerous lectures, Dr. Bentlif takes a great deal of satisfaction in his philanthropic work. He received the Honor al Merito de la Minstro de la Defensa National Republica de Guatemala for work done with Los Amigos de las Americas in 1969. He is a knight of the Order of St Lazarus of Jerusalem which runs a leprosy clinic in Houston. Phil currently volunteers at the St. Jose Clinic in downtown Houston serving indigent patients.

Behind every great man there is an even greater woman, and Philip met the love of his life, Wendy Ann Williams, during his internship at Middlesex Hospital in London. She has endured Phil's years of training, being on call, moving to America, and setting up his practice far from her native home of Australia. The Bentlifs have been married for 54 years and have 3 children and 4 grandchildren. When they are not doting on their grandchildren, they enjoy traveling.

The Texas Chapter of ACP is pleased to bestow its Laureate Award for 2013, on Philip Sidney Bentlif, MD, FACP.

ANTONIO M. GOTTO, JR., MD, DPHIL, FACP

Antonio M. Gotto, Jr., MD, DPhil, FACP is Dean Emeritus and Co-Chairman of the Board of Overseers of Weill Cornell Medical College in New York, New York, where he is also the Lewis Thomas University Professor. In addition, Dr. Gotto is Vice President and Provost for Medical Affairs Emeritus of Cornell University. From 1997-2011, Dr. Gotto was the Stephen and Suzanne Weiss Dean at Weill Cornell and Provost for Medical Affairs at Cornell University. Previously, at Baylor College of Medicine in Houston, Texas, Dr. Gotto was the Bob and Vivian Smith Professor and Chairman of the Department of Medicine, Scientific Director of the DeBakey Heart Center, and the JS Abercrombie Chair for Atherosclerosis and Lipoprotein Research. He also served as Chief of the Internal Medicine Service at The Methodist Hospital in Houston.

Dr. Gotto's postgraduate work included doctoral studies at Oxford University in England, as a Rhodes Scholar, and residency training at the Massachusetts General Hospital in Boston, Massachusetts. He and his associates were the first to achieve complete synthesis of a plasma apolipoprotein (apo C-I). They also determined the complete C-DNA and amino acid sequence of apo B-100, one of the largest proteins ever sequenced and a key protein in atherosclerosis. Dr. Gotto has played a leading role in several landmark clinical trials demonstrating that cholesterol-lowering drug treatment can reduce the risk for heart disease.

As a lifelong supporter of educational efforts aimed at cardiovascular risk reduction, Dr. Gotto has been National President of the American Heart Association and President of the International Atherosclerosis Society. He is a member of the Institute of Medicine and the American Academy of Arts and Sciences and a recipient of many honors, including the Gold Heart Award from the American Heart Association, the Distinguished Alumnus award from Vanderbilt University and the Vanderbilt University School of Medicine, the Order of the Lion from the Republic of Finland, the International Okamoto Award from the Japan Vascular Disease Research Foundation, the Austrian Cross of Honor for Science and Art First Class, the Maurice R. Greenberg Distinguished Service Award from NewYork-Presbyterian/Weill Cornell, the Distinguished Achievement Award from the National Lipid Association, and the Pasarow Foundation Award in Cardiovascular Research. He has received honorary doctoral degrees from the University of Bologna and Abilene Christian University, honorary professorships from the University of Buenos Aires and Francisco Marroquin University (Guatemala), and he is an Honorary Member of the Society for Progress in Internal Medicine (Ludwig Heilmeyer Society) in Germany.

Dr. Gotto speaks nationally and internationally on cardiovascular disease and has contributed more than 500 scholarly articles and books to the medical literature. In addition, he is coauthor of a series of books that explain the origins and treatment of cardiovascular disease to the general public. Dr. Gotto has relocated to Houston, Texas where he is active in the Texas Medical Center as a Senior Member of The Methodist Hospital Research Institute.

The Texas Chapter of the American College of Physicians is proud to honor Antonio Gotto, Jr., MD, DPHIL, FACP as a Laureate for 2013.

STEPHEN BARUCH GREENBERG, MD, MACP

Dr. Stephen B. Greenberg has resided in Houston for 41 years, coming from Baltimore to join Baylor College of Medicine as a Fellow in Infectious Diseases. He accepted a faculty position in the Department of Medicine in 1974, and has risen through the ranks to become Dean of Medical Education in 2006. Dr. Greenberg has been Chief of Medicine Service, Ben Taub General Hospital since 1990.

Dr. Greenberg holds the Herman Brown Teaching Professorship (1990–present). In 2002, he was appointed Distinguished Service Professor at Baylor College of Medicine. His many awards and honors include: membership in the Alpha Omega Alpha Honor Society and is a Master of the American College of Physicians. Throughout his career Dr. Greenberg has been committed to education. He was the recipient of the Chief Resident’s Award for Outstanding Attending in Internal Medicine at Baylor in 1987. He received the John P. McGovern Outstanding Clinical Teacher Award at Baylor in 1995, and the Baylor Alumni Award in 1999. In 2013 Dr. Greenberg was awarded the Barbara and Corbin J. Robertson, Jr. Presidential Award for Excellence in Education which is Baylor’s most prestigious award for faculty education service.

Dr. Greenberg has published over 150 peer–reviewed journal articles and book chapters. He served as North American Editor for the *Journal of Infection* from 2002–2008 and was editor of *Practical Reviews in Infectious Diseases* from 2008–2012. Dr. Greenberg’s past research interests have been in the area of respiratory viral infections.

Dr. Greenberg has contributed significantly to the educational mission of Baylor College of Medicine. He has instructed medical students in Physical Diagnosis, Microbiology, the Core Clerkship in Internal Medicine, and the Medicine and Infectious Diseases services at Ben Taub General Hospital. He has taught medicine residents as an Attending Physician, in conferences, and at the Ben Taub morning report. Currently, Dr. Greenberg has responsibility for all undergraduate, graduate and continuing medical education programs at Baylor College of Medicine as Dean of Medical Education.

In recognition of his accomplishments in a career in medicine and his leadership in the specialty of Internal Medicine, the Texas Chapter of ACP is pleased to bestow on Dr. Stephen B. Greenberg, MD, MACP the Award of Laureate for 2013.

KENNETH I. SHINE, MD, MACP

Kenneth I. Shine, MD, is Special Advisor to the Chancellor, University of Texas System. He is currently overseeing the development of a new medical school in South Texas as well as one in Austin.

Prior to his role as Special Advisor, Dr. Shine served as Executive Vice Chancellor for Health Affairs. In that capacity he was responsible for the six U. T. System health initiatives and their aggregate operating budget of almost \$8.4 billion. He has led system wide initiatives in clinical effectiveness, patient safety, and public health, as well as efforts to transform medical education. He was President of the Institute of Medicine (IOM), from 1992-2002. Under Dr. Shine's leadership, the IOM played an important and visible role in addressing key issues in medicine and healthcare. IOM reports on quality of care and patient safety, heightened national awareness of these issues.

Dr. Shine also was the founding Director of the RAND Center for Domestic and International Health Security. He led the Center's efforts to make health a central component of U.S. foreign policy and guide the Center's evolving research agenda. Dr. Shine is Professor of Medicine Emeritus at the University of California, Los Angeles (UCLA) School of Medicine. Before becoming president of the IOM, he was Dean and Provost for Medical Sciences at UCLA.

2013

TXACP CHAPTER VOLUNTEERISM AND COMMUNITY SERVICE AWARD

The **Volunteerism and Community Service Award** honors members of the Texas Chapter who have distinguished themselves in voluntary service in the area of medicine.

Awardees must be Masters, Fellows, or Members of the College. Self nominations are not permitted. The service must have been performed on a voluntary basis and not required for the completion of teaching, training, or position requirements. Volunteer work must have been done as a physician and be medically related.

Award recipients will be eligible for nomination for the Oscar E. Edwards Memorial Award for Volunteerism and Community Service presented by ACP each year at the College's Annual Session.

It is with distinct pleasure this year that the Texas Chapter honors **James Wagner, MD, MSc, FACP** with the Texas Chapter Award for Volunteerism and Community Service. Recipients of this award have distinguished themselves as true humanitarians to be honored for their voluntary contributions in medicine.

Dr. Wagner, we salute you as a compassionate and honorable physician and wish you continued success with your future voluntary endeavors improving the health of humankind.

Robert E. Jackson, MD, FACP

Governor, Texas Southern Chapter

Sue S. Bornstein, MD, FACP

Governor, Texas Northern Chapter

*“If something comes to life in others because of you,
then you have made an approach to immortality.”*

— Norman Cousins

JAMES WAGNER, MD, MSC, FACP

Dr. James Wagner is Associate Dean for Student Affairs and Associate Professor of Internal Medicine at UT Southwestern Medical Center in Dallas. After his undergraduate work as a “Texas Aggie”, Jim received his MD degree from UT Southwestern Medical School and completed residency in Internal Medicine at UT Southwestern. He also received a Master’s of Science degree in Epidemiology from the Harvard School of Public Health in 1997. Jim became the Associate Dean for Student Affairs at UT Southwestern in 1994 and has had a major impact on the quality of the medical education experience of a generation of medical students. He also directs the Clinical Medicine Course and is a founding co-director of the Academic Colleges thus impacting significantly the early clinical education of students.

Jim is the founder and faculty sponsor of both the internal medicine interest group and the statewide preceptorship program at UT Southwestern, in which capacities he has worked closely with the Texas Chapter of the American College of Physicians. In 2006, working with a group of medical students, Jim founded the Monday Clinic, a student –run free clinic for underserved persons organized in partnership with the North Dallas Shared Ministries. This grew out of Jim’s work as a volunteer physician at North Dallas Shared Ministries for several years. The Monday Clinic has become an institution in which hundreds of patients annually receive free care from hundreds of medical and undergraduate students supervised by volunteer faculty. Jim personally volunteers over one hundred hours each year as the attending physician at the clinic. Recently Jim developed an elective at the clinic such that senior medical students can perform quality improvement projects for academic credit. This effort achieves a marriage of community service, clinical safety and effectiveness projects and medical education significantly benefiting both the participating students and the clinic.

Jim has also spent several years taking medical students on annual spring break medical mission trips to Juarez, Mexico. He has personally contributed additional volunteer activities in the Dallas community, including serving at the Dallas Convention Center providing medical care to refugees from Hurricanes Ike and Katrina and at the 2012 National Association of Free Clinic event in Dallas, which served over 1200 patients.

Jim was recognized for his significant contributions to the Dallas community with the Barbara Stark Baxter medical Volunteer of the Year Award in 2012. He is a fellow of the American College of Physicians. Through his many volunteer activities, Jim contributes both directly to the care of the underserved, but even more importantly he serves as a role model and teacher to students who because of his influence will incorporate volunteerism into their own long careers in medicine. Thus Jim demonstrates all the attributes associated with the Oscar E. Edwards Memorial Award for Volunteerism and Community Service.

The Texas Chapter of the ACP is proud to recognize James Wagner, MD, MSc, FACP with the 2013 TXACP Chapter Volunteerism and Community Service Award.

EARLY CAREER PHYSICIAN LEADER OF THE YEAR AWARD

The Texas Chapter of the ACP honors an active ACP member that demonstrates leadership in community services that has been in practice for at least ten years. The Early Career Physician Leader of the Year Award is the most prestigious recognition of achievement for early career physicians. It is with distinct pleasure that the Texas Chapter honors Pete Yunyongying, MD, FACP with the Texas Chapter Award for Early Career Physician Leader of the Year. Recipients of this award are recognized for their outstanding achievement in the areas of academics, leaderships, and/or advocacy for the field of internal medicine.

Robert E. Jackson, MD, FACP

Governor, Texas Southern Chapter

Sue S. Bornstein, MD, FACP

Governor, Texas Northern Chapter

*“People grow through experience if
they meet life honestly and courageously.
This is how character is built.”*

— Eleanor Roosevelt

PETE YUNYONGYING, MD, FACP

Pete Yunyongying, MD, FACP, is an Associate Professor of Medicine at University of Texas Southwestern Medical Center at Dallas (UTSW) and works full time as a clinician-educator at the Veterans Affairs North Texas Health Care System (VANTHCS). Born and raised in Baltimore, Maryland, he attended Brown University for undergraduate studies and the University of Maryland for medical school. He completed internal medicine residency at UTSW and subsequently completed fellowships in both Medical Education and Teaching and Educational Leadership at the University of Southern California – Keck School of Medicine.

Dr. Yunyongying's career has focused on medical education and curriculum development. In addition to teaching medical students and internal medicine residents, he has held lead roles in teaching classes in quality improvement, communication skills, and evidence based medicine. Dr. Yunyongying has a particular interest in developing inter-professional and interdisciplinary programs. He is working with the VANTHCS Mental Health Service on a steering committee and curriculum for the Dallas addiction leadership training fellowship, which is a new postgraduate fellowship.

Dr. Yunyongying is very active in professional organizations including the American College of Physicians (ACP), both nationally and locally, and the Society of General Internal Medicine (SGIM). He organizes the Annual Texas ACP (TXACP) Residents Day for the Dallas area and has completed the ACP Leadership Enhancement and Development (LEAD) certificate training. He served on the TXACP Chapter Board of Directors, assisted in starting the Texas ACP Council of Early Career Physicians (CECP), and was the chair of the Communications Committee for the TXACP. In SGIM, he sits on the National Education Committee, the Milestones workgroup, and the Maintenance of Certification workgroup.

Dr. Yunyongying has served on numerous committees at both VANTHCS and UTSW. He leads a faculty development series at the Dallas VA Medical Center for fellow UT Southwestern faculty and VA Staff. He has served as an ad hoc reviewer for several journals, mentored residents on poster presentations and published numerous research articles, book chapters, case reports and letters to the editor.

In addition to his professional achievements, he has contributed greatly to the local community. He has held leadership positions including being the Chair of Alliance, an organization of young professionals supporting the Dallas Children's Advocacy Center. He is a member of the steering committee for the MAC PAC, a support organization for the McKinney Avenue Contemporary art exhibition space, and is a member of the steering committee for Vivaldi, a support organization for the Dallas Symphony Orchestra. Additionally, he is on the advisory board for the Crow Collection of Asian Art and a docent for the museum.

Dr. Yunyongying exemplifies dedication and leadership to the field of internal medicine and his community for all physicians, especially early career physicians. TXACP is proud of Dr. Pete Yunyongying as recipient of the 2013 Council of Early Career Physicians Leader of the Year Award.

GIMSPP DECADE OF SERVICE AWARD

The General Internal Medicine Statewide Preceptorship Program Decade of Service Award honors highly active and dedicated preceptors who have taught medical students in their practices for the past ten years.

It is with genuine pleasure that this year, the Texas Chapter presents the GIMSPP Decade of Service Award to **Gopinath C. Chandrahasan, MD; Carmelita P. Escalante, MD, FACP; Carlos R. Herrera, MD; Wenli Liu, MD; and Paraic J. Mulgrew, MD, FACP.**

We thank these devoted preceptors for the time, knowledge and energy they have unselfishly given to the future physicians of Texas.

Eugene Stokes, MD, FACP

Co-Chair, TXACP Medical Students Committee

Karen Szauter, MD, FACP

Co-Chair, TXACP Medical Students Committee

Jose A. Perez, Jr., MD, FACP

President, TXACP

*“A teacher effects eternity;
he can never tell where his influence stops.”*

— Henry Brooks Adams

GOPINATH C. CHANDRAHASAN, MD

Dr. Gopinath Chandrahasan was born in a small village in Kerala, India. He came to the United States as a small child and was raised in both Lubbock and Houston, Texas. Dr. Chandrahasan attended college at Houston Baptist University where he majored in Biology and Chemistry. In 1992, he graduated from medical school at UTHSCSA. He stayed in San Antonio to complete his internship and residency.

His first job after residency was as an outpatient physician for Humana Health Care and he stayed with Humana for five years. After leaving Humana, Dr. Chandrahasan took a job as a hospitalist with a local company called HOSA; hospitalists' jobs were just pioneering at that point. Early into his hospitalist career, he met his incredible and beautiful wife Sandy, whom he now has two beautiful children with, Mia (10) and Evan (7). For the past ten years, Dr. Chandrahasan has been working for a national based hospital group (IPC). He also serves on the Boards of St. Luke's Baptist, Kindred LTAC Facility, and Oak Park Nursing and Rehab. Dr. Chandrahasan has enjoyed mentoring medical students, medical interns, physician assistants and nurse practitioners over the past decade. GIMSPP is pleased to bestow the Decade of Service Award on Gopinath Chandrahasan, MD.

CARMELITA P. ESCALANTE, MD, FACP

Dr. Carmen Escalante graduated from Louisiana State University School of Medicine in 1985. Subsequently, she completed her postgraduate training in internal medicine at The University of Texas Health Science Center in Houston, Texas. Following her postgraduate training, she joined the University of Texas MD Anderson Cancer Center as a faculty member in internal medicine in 1988 and has

thrived during her academic medical career. She is presently Professor and Chair of the Department of General Internal Medicine with tenure at M. D. Anderson. She chairs the largest department in the Division of Internal Medicine with four academic sections, 41 physicians and scientists and a large team of classified staff members. She is board certified in internal medicine and a fellow in the American College of Physicians. Dr. Escalante established one of the first Cancer-Related Fatigue Clinics in the nation, recognizing the challenges cancer patients face with this symptom. Since, the Clinic has served as a model for other institutions throughout the country and world. She has served on a national guidelines panel for Cancer-Related Fatigue. Dr. Escalante has served in various leadership positions at MD Anderson during her career. Most recently, Dr. Escalante was selected among 26 accomplished women leaders within University of Texas MD Anderson Cancer Center to write her story of success in the book, "Legends and Legacies". This book details the personal journeys of leading women physicians and scientists at the institution and aims to provide inspirational role models to others, ultimately increasing the presence and success of women in medicine and science. She has participated in the GIMSPP for the last decade as a mentor for medical students and has thoroughly enjoyed the experience, hoping to inspire more to pursue primary care medical careers. GIMSPP is pleased to bestow the Decade of Service Award on Carmelita Escalante, MD, FACP.

CARLOS R. HERRERA, MD

Dr. Carlos Herrera was born and raised in Houston, Texas. He is married to Sylvia and has four children. He graduated from Rice University and Harvard Medical School. He then participated in the Masters of Public Health Program at the University of Texas Public Health School and the Food and Drug Administration. He was an Associate Professor at the University of Texas Medical School for ten years. He received several teaching awards and has continued to mentor students in his private practice. In 2001, Dr. Herrera moved his private practice to Heights Doctors Clinic in Houston, Texas. Since 1990, he has performed numerous clinical trials in diabetes, hypertension, asthma and gout. He is a Regional Quality Manager for Select Hospitals in the Houston area, and was the Resource Quality Committee Chairman for Northwest Memorial Hermann until 2013. His hobbies are dancing, golf and travel. GIMSPP is pleased to bestow the Decade of Service Award on Carlos Herrera, MD.

WENLI LIU, MD

Dr. Wenli Liu graduated from Hunan Medical University in China in 1988. She has been with the University of Texas MD Anderson Cancer Center for 13 years during which time she has served as a preceptor to up and coming medical students. Dr. Liu focuses on inspiring students to make meaningful connections between basic medical sciences and clinical history taking, physical exam and decision making. She has thoroughly enjoyed her preceptor experience and looks forward to be able to make a difference in the lives of the next generation of physicians by educating them through this wonderful program. GIMSPP is pleased to bestow the Decade of Service Award on Wenli Liu, MD.

PARAIC J. MULGREW, MD, FACP

Dr. Paraic Mulgrew was born in Ireland. He completed medical school at The University of Dublin. Dr. Mulgrew came to the states in 1968 and completed his residency in Internal Medicine at Wilmington Medical Center in Wilmington, Delaware. He was drafted and served in the US Army from 1972 -1980 and completed his fellowship in Nephrology at Brook Army Medical Center in 1976. Dr. Mulgrew joined Renal Associates, P.A. in 1980. Dr. Mulgrew has founded several transplant programs at Methodist Specialty and Transplant Hospital and at Christus Santa Rosa Hospital, which include renal transplant, heart transplant and heart & lung transplant programs. Dr. Mulgrew is married to his wife Judy. He enjoys traveling and all things relating to military history. GIMSPP is pleased to bestow the Decade of Service Award on Paraic Mulgrew, MD, FACP.
